News From Your TOWN HALL

Growing pains natural to a town of this size and with its impetus of expanding agricultural undertakings was evident in the Town Commission's meeting Wednesday night.

Citizens both naturally and because of the scarcity, rationing and high price of butter, have taken to having a family cow. Others have added chickens and ducks to the family menage, and some have taken to fattening a porker in or around the town's limits.

Some boys, sent out to give old Boney a new grass plot to nibble have carelessly tied her to a tree so that she wanders out in streets or on the sidewalks. Some have carelessly left the gate open and let her ramble around.

Still others have gone into the fattening business commercially and find that some of the Florida range cattle object to confinement under close scrutiny and just bounce over the four strand fences put up.

All of this has led the Town Fathers to devise an ordinance giving them authority to pen up the strays and now they want one to permit them to slap a fine on the owners for repetition, and they expect to enact such an ordinance at the next meeting.

It looks as though fences had better be mended and gates kept closed as well as discretion used in raising the old cow, or Dad's coming home some night with a summons to appear before Hazen and "show cause."

The Commission is still sticking with an engineer-architect firm concerning a zoning ordinance for the town.

The town is still getting along with "two policemen and a prayer" with Slim doubling with his fireman's hat and his policeman's hat as occasions allow.

The Fire Chief appeared before the Commission with an appeal for sympathetic action concerning permanent firemen who will take an interest in fighting and equipment care. Our department is entirely voluntary, except for a day and a night fireman, who is supposed to get the engine to a fire right now and know what to do when he gets there.

A special meeting is to be held sometime soon and some definite action is expected by the Commission. A Department, which accomplishes "at our does" it has saved Belle Glade on numerous occasions—should be encouraged.

Lieutenant John P. Onoff, nephew of Mrs. Mabel Tedder is visiting his Aunt along with his wife and two children during a well earned furlough from pilot duty in the China Burma India area.

Flying g-4's and c-57's on schedule without regard to the weather, Zero patrols, mountains or other natural and man-made hazards, 152 missions for a total of over 1,000 hours calls for steady nerves but doesn't encourage the growing or strong throwing of your nerves. That, however, is what Lieutenant Onoff has done.

He brought home to his wife and babies ample evidence of one of the toughest jobs known to aviation does commencing. He wears a ribbon on his right breast indicating personal citation by the President of his unit; he has a ribbon on his left breast indicating one from the Generalissimo to his unit.

The Distinguished Flying Cross with cluster and the Medal with cluster are further evidence of his Command's appreciation of his work. The clusters denote the second award of the medal on which it is worn.

To hear the Lieutenant say "there was nothing unusual or exciting happened to me" is to hear him note his youth with the well deserved ribbons across his blouse makes you proud to be an American.

Two Negroes Push Sixth Bond Sales

E. M. and W. C. Taylor, two negro business men of Belle Glade, acting as co-chairmen for the negro section of the State bond drive under Milton Campbell, Finance Chairman, beat the bushes among their own race and succeeded in selling \$2,000 purchase value of "B" bonds and \$2,000 in "F" bonds.

The two men have been identified with all bond drives as well as other public spirited efforts for their race.

This New Year

is one all of us have looked forward to, be cause we confidently believe it is to be the year of Victory.

On land, sea and air, our Armed Forces are doing a magnificent job. And the Home Front, too, has performed miracles in producing the tanks, ships, planes, food and other necessities of war without which 1945 could not be the Year of Victory.

So, we look forward to 1945 as the year when war may cease and peace begin. And it is the ardent hope and prayer of all men of goodwill all over the world that 1945 sees the beginning of that long awaited time when wars shall be no more.

Let us, therefore, in starting the new year rededicate our selves to finishing the task begun. Whether we be workers in industrial plants, producers of food on our farms or serving in other capacities, there is extra effort we can put forth to assure Victory soon.

Dance Saturday Nite At Country Club To Celebrate New Year's

Mac McWhorter, Chairman of the Entertainment Committee, states that the band he has engaged for the New Year's dance Saturday night is a "hot" one, and the Committee expects the Club House to be full for the occasion.

Formal attire is optional, and there will be favors, horns and noise makers aplenty to satisfy the most hilariously inclined.

Reception from the New Year's celebration is expected to have progressed satisfactorily by Monday morning so that the town can emigrate to the Orange Bowl game.

You are reminded that service men and women in uniform are invited to be the guests of the Club on New Year's night, as on all other dance nights at the Club.

Annual Christmas Party Enjoyed By Home Demonstration

The Woman's Home Demonstration Club enjoyed their annual Christmas Party at the Woman's Club on Thursday.

The rooms were decorated with a trimmed tree, Florida holly and other Yuletide hangings. Mrs. Thomas Bregger, president, presided at an informal program which opened with Christmas carols. Miss Mary Eleanor Kilder at the piano.

Members attempted to roll call by telling of their activities in preparing for the holiday season. Gifts made at home or interesting gifts seen in the stores, boxes packed for service men and women. Much holiday baking and sewing was revealed and Mrs. R. L. Murray listed a long series of articles suitable for sending boys overseas.

A Christmas card from Mrs. Irene Neiler of Gainesville was read by the president.

A gift exchange took place, the gifts being piled at the foot of the Christmas tree and drawn by lot by the president, each member receiving a gift and special gifts from the club to Mrs. Bregger, president, and Miss Bertha Nil Hausman, county home demonstration agent.

Dem Joomakers Got Too Rambunctious

Colored Jamaicans, commonly referred to by the dusky Gargia negroes as Joomakers, conceived a plan to revenge an imagined wrong during a match-boxing bout between members of the two geographically and psychologically separated dusky citizens of His Britannic Majesty and citizens of Gargia.

It seems that during the boxing bout the Gargia negro did something that did not conform to the alcoholically befuddled Joomakers' rules of the Joomakers. So, after the official contest was over they proceeded to look for the American half of the bout to work him over and teach him their rules.

In their perambulations they came on a house occupied by another American in which they thought the former batter was hiding. Because of their insistence on searching the house, its occupant pointed the business end of a shotgun loaded with bird-shot and banged away.

Hospital attendants were busy for several hours digging him shot from the Joomakers' tide as well as making minor repairs to a number of others who had run afoul of switch-blades and 2x5's.

Lions Club Thanks Public For Help In Building Tennis Cts.

Dee DeHaven, as President of the Lions, wishes to thank the public for its generous contribution to the effort to secure a tennis court in the town park.

"We find," says Dee, "that the public in Belle Glade responds generously to appeals for a public effort for the community good. In the case of tennis courts, our Committee lost little time in raising the necessary funds, and through the cooperation of the Town Fathers and Joe Freedlund, contractor, the courts are ready for play and something of which the Community should and will be proud."

Sixth War Loan Plot Here

With a total of only \$89,000 in all types of bonds sold, only \$30,000 of those in "E" bonds, this community has made the worst showing of any bond drives.

Maybe the storm, the freeze and Xmas were too much for the boys who have carried us over the top so far.

Good Prices Prevail With Light Shipment During The Holidays

Without any 25 cars moving from the Lake, beans brought the ceiling of \$4.60.

Potatoes, though not in full harvest, was responsible for 83 cars and all at practically the ceiling price. A number of large growers expect to begin harvesting the week after New Year's, and for two weeks to a month the movement is expected to be heavier than ever before for a similar period.

Celery is beginning and will be a main item of income for the next couple to three months. Prices ranged from \$1.50 to \$3.50 per crate. Within ten days this item will be important in the movement. Much is not as good as in some past years, but altogether the celery farmer has bright prospects.

Niels Nielson Dies Of Heart Attack

Funeral services were conducted for Niels Thorvald Nielson Sunday at 2:30 at the Community Methodist church with the Rev. Jay O. Janson officiating.

Mr. Nielson died at his home in Chosen Friday morning following a heart attack.

Born in Hancock, Wisconsin, 67 years ago. He came to the Glades and has been a resident of Chosen for the past 15 years. He was a cabinet maker and was secretary and treasurer of the Carpenter's Union here and a member of the Lutheran church.

Survivors are the widow, Mrs. Inga Nielson and three sons, Herman and Clarence of Beloit, Wisconsin and Holgar, serving with the U. S. Army in England; his mother, Mrs. Jennie Nielson of Hancock, Wisconsin; a sister, Mrs. Almina Rosell, Beloit, Wisconsin; and six brothers, Sivert Nielson, Waupaca, Wis.; George, Victor and Oscar of Beloit, and Emil Nielson of Hancock and Ted Nielson of Waupaca.

Burial was at Woodlawn Cemetery in West Palm Beach. Pall bearers were Arnold Muller, Lawrence Bessant, Peter Muller, Ryan Hatcher, E. F. Markham, C. H. Lindsey, The Everglades Funeral Home of Pahokee were in charge of arrangements.

Some celery will jump up to several hundred cars per week within a short time if price allows profitable cutting. They have brought from \$1.50 to \$2.20 per 50-lb. bag this past week, which allows the farmer a substantial margin of profit.

Some celery is moving and at a very satisfactory price, while radishes accounted for 32 cars during the week at a price that is acceptable.

Mixed vegetables is maintaining a good percentage of the year, and is a very healthy sign indicating a distribution that was lacking until just a few years recently.

The movement to date is as follows:

Walter J. Matherly

The Rotary Club of Belle Glade welcomed today Dr. Walter J. Matherly, Governor of the 167th District of Rotary International, which includes 67 Rotary Clubs in Florida. Dr. Matherly, a member of the Gainesville Rotary Club, is Dean of the College of Business Administration of the University of Florida, a member and chairman of the Board of Directors of the Jacksonville Branch of the Federal Reserve Bank of Atlanta, and is a former part-time member of the Fourth Region of the War Relocation Authority in Japan. He was nominated as Governor at the Conference of the 167th District held last April in St. Petersburg and was formally elected at the 1944 Convention of Rotary International in Chicago, Illinois, in May.

Dr. Matherly, who will speak at the meeting of the Rotary Club, will advise with and assist President Dick Townsend, Secretary Roy A. Bair and other officers of the Club on matters pertaining to club administration and Rotary service activities. He is one of the 140 Governors of Rotary International who are supervising the activities of 5,254 Rotary Clubs with 231,000 members in more than 160 countries throughout the world.

Despite the war, this worldwide service organization continues to grow in numbers and in strength. Since July 1, 1943, 203 new Rotary Clubs have been organized in 27 countries of the Americas and in Australia, Ceylon, China, England, Finland, India, Kenya, New Zealand, Northern Ireland, Sweden, Switzerland and Union of South Africa.

Seabees Have Third Birthday

The third anniversary of the "workingest, fightingest bunch of boys in the nation's armed forces," the Navy Seabees was observed on December 28 by 240,000 officers and men of the United States Navy Construction Battalion.

Born just three weeks after the Pearl Harbor disaster, the Seabees have an authorized strength of 100,000. Continued on page 4

DOPEY

After looking in the crystal ball, "Dopey" opines that since Christmas day weather was good and chances are the New Year will come in under an auspicious start. However, "Dopey" crosses his fingers as to what is coming after that. Using for comparison the winter of 1939-40 which was one of the coldest Florida ever experienced, the 1944-45 season is well on its way of breaking a record. So far this season several stations have recorded temperatures of 21 degrees, within a few degrees of the coldest recorded in January 1940. Using the Experiment Station for comparison, up to Jan. 1, 1940, there had been 7 days recorded with temperatures 20 degrees or lower with a low of 32.9 degrees. Up to Jan. 1, 1945, the same station has had 29 days with temperatures of 40 degrees or lower and a low of 27.1 degrees. Should this same trend continue throughout the year, undoubtedly the growers will talk about this season for years to come.

George Washington had false teeth

George Washington was plagued all day by the Duke of Wellington, Napoleon's conqueror, had 20 degrees or lower with a low of 32.9 degrees. Up to Jan. 1, 1945, the same station has had 29 days with temperatures of 40 degrees or lower and a low of 27.1 degrees. Should this same trend continue throughout the year, undoubtedly the growers will talk about this season for years to come.

Then there's the story of the lawyer who sat up all night trying to break a widow's will.—Selected.

The extent to which we have drifted away from true patriotism is brought home by the woman war worker of Pennsylvania who sent General Douglas MacArthur \$525 saying that "it was simply partial payment for one American woman for letting the boys on Bataan and Corregidor down." The money is being spent on candy and other gifts for orphaned and homeless Philippine children.

This lone patriot, forced to quit her job because of illness, then added: "And when I looked around me at work and saw all the loafing on the job I knew that in spite of the wonderful job we are doing, we are still letting the boys down."

SNAFU!

Following the resignation of a high official in the dairy products section of OPA, high sources state that his pricing policies and regulations will be scrutinized to see if they are designed to favor big cheese processors. An effort also will be made to determine whether butter has been detrimentally priced to favor the dairy products.

Is it any wonder that farmers fear government domination of their business? They can cope with natural laws. But in a bureaucracy where natural laws are manipulated by men constantly subjected to human temptations, near chaos is a normal condition. This state of affairs can best be described by the armed forces' new word, SNAFU, abbreviating, "Situation normal; all fouled up."

ANTHONY'S

"Anthony" has a meaning

"Anthony's" on your merchandise has the same character meaning as "sterling" on silver. The only difference is that the Anthonys are right here at home where you can talk to them. If the merchandise you buy at Anthony's in war times or regular times is not as represented, Anthony's makes it good.

We have established a record for handling the best merchandise money and experience can buy. We specialize in the way our garments from all departments are fitted to your practical needs. This service plus the styling of the garments gives our customers an added value generally found only in made to order service.

Make Anthony's your headquarters when in town!

Billy Schoenfeld was honored on his third birthday by a party given by his mother, Mrs. Freeman Schoenfeld at their home Friday afternoon. The Christmas motif and colors were carried out in decorations, favors and refreshments. The hostess was assisted by Mrs. John Schoenfeld and Mrs. J. W.

Question—Where is the "Rapture" mentioned in the Scriptures?

Answer—The word "rapture" is not found in the English translation of the Bible. It evidently comes from *rapieum* in the Latin Vulgate version of 1 Thessalonians 4:17, meaning "caught up." When Christ comes, "we which are alive and remain shall be caught up together with them in the clouds, to meet the Lord in the air; and so shall we ever be with the Lord."

Q.—Please explain the "man child" in Revelation 12.

Q.—What will be the effect of Christ's coming upon wicked men?

A.—Luke 17:29, 30: "But the same day that Lot went out of Sodom it rained fire and brimstone from heaven, and destroyed them all. Even thus shall it be in the day when the Son of man is revealed."

Q.—Is this earth to be completely destroyed at last?

A.—It is to be the home of the saved. Matthew 5:5: "Blessed are the meek: for they shall inherit the earth."

After the millennium this earth renewed, will become the home of the saved. "Nevertheless we, according to His promise, look for new heavens and a new earth wherein dwelleth righteousness."

Q.—Why are the books of the Apocrypha not retained as Scripture in the common version?

2. They originated after prophethood had ceased in the Jewish church—that is, after Malachi.

3. They were not written in the Hebrew language.
4. Neither Christ nor the apostles quoted from them.
5. Their teaching, character, and

6. They give light on the time that produced them. The Maccabees are valuable as history

"Never thought I'd see the day..."

When the women folk would put the meal in the oven or on the stove, turn a couple of switches, and go off and leave it for hours, knowing when they'd come back they'd have a meal fit for a king.

Why, I remember when they used to have to stand over the hot and smokey old stove every minute and how they'd have to worry and fret, adding the coal or wood so they'd keep the heat up. And then they couldn't even be sure the food would turn out right. But all that's changed with those electric ranges we have today . . .

And I understand that after the war there'll be more improvements . . . windows in the range, so you can see how roasts or pies and cakes are coming without opening the oven . . . new automatic heat and time controls . . . combination well-cookers and deep fat fryers . . . light and sound signals and other conveniences like that. Yes, I never thought I'd see the day . . . but I'm sure glad I will see what this new electronic age will bring.

● **MEN WHO DRIVE** trucks through this town know where to get what they need when it comes to parts and service. We understand what they're up against in trying to meet wartime hauling schedules. That's why we say to you:

When your truck needs expert attention we're equipped to do the job the right way. Our mechanics know trucks from the ground up and they have the tools and equipment to service them. Our bins are full of genuine International parts—the kind you bought as part of your truck when it was new. You wouldn't have taken a "just-as-good" part then and you certainly don't want anything less than the best now.

Your truck must be more important to you than ever. We're here to help you. New trucks for civilian use will be scarce for some time to come. If your hauling is essential we can give you valuable assistance in applying for new equipment. Let's talk it over. This is your International Truck Headquarters.
